**PHONE:**

+54 9 1121860057

## PERSONAL INFORMATION:

I am a passionate programming student of Full Stack Development. I am focused on acquiring skills in both client-side and server-side development, providing me with a comprehensive understanding of modern web creation. Additionally, I possess strong experience in translation and transcription projects that complement my technical skills.

## TECHINICAL SKILLS:

- **Programming Languages:** HTML, CSS, JavaScript, Java, C
- **frameworks:** Node.js, Spring Boot
- **Additional Tolls:** Git

## Education:

- Bootcamp course Alura in association with Oracle company.
- Independent courses in programming and translation.

## Additional Information:

In my constant pursuit of opportunities to learn and improve, I have refined my expertise in translation and transcription, demonstrating my ability to work with technical and specialized texts. My proactive approach and ability to manage projects independently align with my commitment to contribute to dynamic teams in web development.
